YOUTHS URGED TO TAKE PART IN DEVELOPING THE FUTURE OF THE NATION IN THE ADVENT OF YEAR 2030

UUM ONLINE: Young people are encouraged to take part and join the government in building the country's future by the 2030s.

Member of the Kedah State Assembly, Mr Ooi Tze Min said the joint participation was to play a greater role in planning more successes and bring glory to the country in the future through the Shared Prosperity Vision 2030 (SPV2030).

According to him, the SPV2030 was aimed at providing a decent standard of living to the people from all walks of life by the year 2030.

He said the Ministry of Education Malaysia (MOE) and all agencies under its auspices were fully committed to the implementation of SPV2030 and also the 2020 Budget tabled by the Prime Minister on 11 October at the Parliament.

"In an initiative to develop the intellectual minds of Malaysians, KPM has selected UUM as the organiser of this symposium which I believe will deliver good results and enhance participants' awareness and clarify the direction of human capital production in the era of globalization towards modern Malaysia 2030.

"The challenges ahead will be more complex and competitive. Therefore, we must continue to focus on the national development agenda as the country is now operating in a very dynamic and volatile world especially during the time of the Fourth Industrial Revolution (IR 4.0)," said he who is the Chairman of the Chinese and Siamese Community Affairs, Science and Technology, Climate Change and Environment Committee at the Launching of the Youth the Advocate of Prime Challenge Symposium 2019: Realising the Shared Prosperity Vision 2030 at the Convention Centre recently.

He who represented the Kedah Menteri Besar said that in line with the country's blueprint, UUM and co-organisers, KPM, made the best move to organise the symposium.

He said he fervently hoped that the symposium would open up space and avenues for the exchanging of useful ideas and views and getting the latest information from participants and speakers.

Shared Prosperity Vision is a blueprint or national roadmap for the years 2021 to 2030 that was proposed and developed by a group of researchers from the Institute of Future Malaysia (MASA) in September 2018 and launched on 5 October.

Meanwhile, Deputy Vice-Chancellor (Student Affairs and Alumni), Assoc. Prof Dr Hendrik Lamsali said the young people today should be equipped with high technology and digital knowledge in order to prepare them for the modern age, so the framework that this government had built must be assumed by all parties in helping the country achieve its aspirations.

He also expressed hope that the symposium would open up avenues for a cohesive approach in the refinement and assimilation of ideas for the sake of glory of civilization for the future of the nation.
