

Introduction

Law, justice and integrity are key cornerstones of development, human rights, peace and security. On the other hand, the rule of law can only be established and maintained when all individuals, organizations and institutions, both in the public and private sectors are accountable to laws that are publicly promulgated, equally enforced and adjudicated through an institutional framework governed by the principles of transparency, integrity, justice and accountability.

9th Universiti Utara Malaysia International Legal Conference 2017 (ILC 2017) offers a collaborative environment to academicians, researchers and practitioners to exchange and share their experiences and research results on all aspects of law with special emphasis on issues of legal diversity. The conference will also provide a platform for the intellectuals from various fields and disciplines in law to debate and discuss the current issues worldwide as well as finding solutions to the problems.

The aim of this conference is primarily to enhance the role of academicians, researchers and practitioners in formulating the future of our law and legal system to suit the need of modern society. ILC 2017 is built on the success of 8 past conferences organized by the School of Law, UUM College of Law Government and International Studies, Universiti Utara Malaysia. It is hoped that ILC 2017 will be another successful conference and that the mutual exchange of ideas among the participants will generate suggestions which can be beneficial to the field of law. It is also hoped that ILC 2017 will be starting point for future discourse on the issue of legal diversity in the 'borderless world'.
