SURVEY Date: 7th Mar '17

Q. How is your Internship in Singapore so far?

- A. So far so good I guess. Everything went smooth. Although the job is mentally and physically challenging but it provides me the opportunity to build a stronger me in both of the aspects.

Q. Will you encourage your junior to come to Singapore for their Internship?

- A. **Definitely YES!** As I mentioned earlier, it is a challenging job to do. May be we started from the bottom but everybody that is successful now started from the bottom too especially in the hospitality industry. It is also a fundamental to bright future. Therefore, to be able to start the fundamental in Singapore is surely a great first step.
