(*THE EMINENT MANAGEMENT UNIVERSITY*)

Translated by Mahaliza Mahadhir (mahaliza@uum.edu.my)

UUM ONLINE: CONSTRUCTION OF THE LAKE RESTAURANT / THE LAKE RESTAURANT UUM.

UUM denizens and the surrounding community will have another new icon that is both special and captivating when THE LAKE RESTAURANT or the semi-floating Lake Restaurant is completed at the UUM Fishing Lake. What is special about the Lake Restaurant is that it will also be ACADEMIA LOUNGE 2 which is open to all UUM denizens.

The restaurant will serve village cuisine Pumpong-style in the day, while in the evening it will offer Kuala Perlis-style seafood and grilled fish. All the dishes at the Restaurant which boasts a seating capacity of 200 people are offered at very special prices. Campus denizens who wish to enjoy village-style cuisine and seafood no longer need to travel to Alor Setar or Kuala Perlis once the Lake Restaurant begins its operations early 2018.

The restaurant will also be a one-stop centre for recreational and leisure activities for the campus community and out-of-town guests when the horse-drawn carriage, tram, buggy, bicycle and GPS bicycles, Punting boats and "jogging track" and "Outdoor Gym" services are centred around the vicinity of the Lake Restaurant. This planning will enable the UUM Edu-Tourism programme to take off and attract visitors from outside as the "Mini Pet Farm" or Mini Animal Park is also located not far from the area of the lake.

Despite the fact that the first Academia Lounge is located at the building that houses the Tunku Puteri Intan Safinaz School of Accountancy (TISSA) and Academia Cafe & Bistro at UUMKL, the purpose of the construction of Academia Lounge 2 cum the UUM Lake Restaurant remains the same that is to provide the academics and students with a venue to entertain and have meetings and discussions in a relaxed and comfortable environment while at the same time generate income for the university.

The Lake Restaurant is also equipped with various other facilities such as a musollah, two lecture rooms with a seating capacity of 50-60 people each, a seminar room and space for business kiosks run by students.

The UUM fishing lake where the Lake Restaurant is being constructed will always be preserved. Fishing activities will resume once the restaurant is completed.

The current turbidity of the fishing lake is due to the Sintok River's overflow during the recent rainy days and not due to the ongoing construction work. Logging and quarrying activities that occur upstream of the river which are beyond UUM's control also contributed to the turbidity of the water.

The UUM Development and Maintenance Department will ensure that the water at the lake becomes clearer and suitable for fishing and recreation activities in the near future. Let's together look forward to the official opening of UUM Lake Restaurant early next year.
