SERIES 1: LITERATURE REVIEW WITH ATLAS.ti 8

Literature review is a continuous process throughout the entire research journey. Along the journey, researchers are faced with problems such as the lack of system to manage the literature and writer's block problem. This course will demonstrate the basic functions of ATLAS.ti 8 Windows for the purpose of managing the literature, managing the important points in the literature, and preparing the written review based on the report generated in ATLAS.ti

SERIES 2: QUALITATIVE ANALYSIS WITH ATLAS.ti 8

Qualitative data analysis simply means to convert the raw data sources (participant's text/voices/images) into the interpreted format (findings/research report). This course demonstrates the main functions in ATLAS.ti for the purpose of qualitatively making sense of different types of data formats, such as textual, images, audio, video and maps.
