YOUNG HACKERS COMBATING EACH OTHER IN UTPHAX 2016

SOC ONLINE: The National Hacking Competition (one of the program under Discover UUM 2016) has been held from 22nd to 23rd October at Auditorium level 3 at Perpustakaan Sultanah Bahiyah. This competition was organized by School of Computing and I-TECH in collaboration with Universiti Teknologi Petronas, Cyber Security Malaysia and State of Kedah. A total of 41 groups of 'young hackers' from 18 universities around Malaysia competed with each other in answering and completing 2 days 'hacking assignment'. In a group of three, students were free to plan and answer the question. Not only that, the competition was also in parallel with the same competition running in Vietnam (16 groups). The winner of this competition is given in different categories including to the group that has the highest number of questions answered, the most difficult question, and the fastest question answered. This competition won by the group of "NOPSled" from UNIKL, followed by "There" from UNITEN and AlFarabi 2.0 from UiTM Perlis. The total prizes for the competition are RM10000 that received from many sponsors such as MyRen, TIME, Mesiniaga, TM Berhad, NasEDUCATION and the state government, Kedah Darul Aman. YB Dato Ahmad Zaini Jaafar, the State Assemblyman for Bukit Kayu Hitam was invited for the closing and prize giving ceremony. Also attended in the competition are the coaches for each university.
