

## About the Universal Peace Federation

The Universal Peace Federation (UPF) is a global network of individuals and organizations dedicated to building a world of peace in which everyone can live in freedom, harmony, cooperation, and prosperity.

## About the Inaugural Asia Peace Conference (APC)

The Asia Peace Conference (APC) seeks to harness the spiritual talent of Asia for greater collaboration for peace and prosperity in the region. Asia is the home of one-third of the global population and also the birth-place of great civilizations and religions. Malaysia is no doubt well suited to be the ideal location for the inaugural conference as it is the home of the many religions and cultures of Asia.

The Asia Peace Conference will examine regional and national "best practices" towards achieving interfaith harmony through the practices of moderation and cooperation in order to chart a way forward. The deliverables will be a set of substantive action-oriented recommendations that will be leveraged through over 200 participating leaders of government, religion, academia as well as NGOs from Malaysia and neighbouring countries such as Indonesia, Thailand, Singapore, Taiwan, Philippines, Cambodia, India, Nepal, Korea and Japan.
