MARIM & FAPARMO INTERNATIONAL RISK MANAGEMENT CONFERENCE (IRMC) 2010

*"Managing Climate Change Risk :
Preparedness & Strategies"*

6-8 July 2010

Langkawi Island, Malaysia

About The Conference

The MARIM International Risk Management Conference is a bi-annual gathering organized by the Malaysian Association of Risk and Insurance Management (MARIM). This year IRMC 2010 is supported by the Federation of Asia Pacific and African Risk Management Organization (FAPARMO) and hosted by Universiti Utara Malaysia (UUM).

MARIM Conference is one of the leading risk management conferences in the region covering wide range of issues on enterprise risk management. It brings together experts from all over the world to present and share their tactical strategies with professionals and managers involved in managing risks at their organizations.

The IRMC 2010 aims to foster meaningful discussion on key issues facing risk managers in managing one of the most significant emerging risk facing the world today – climate change risks. It brings huge challenges to the environment, to the economy and at the micro level, to an enterprise.

To this end, the conference organizes a keynote speech, plenary sessions, academic research tracks, and social events featuring distinguished leaders from industry, government, and academia. IRMC 2010 is definitely an excellent learning and networking opportunities for everyone

Conference Objectives

The conference is to gather professionals from various economic sectors to:

- gain information on the current issues, challenges, best practices, and benchmark in enterprise risk management
- discuss the strategies and tactical issues facing organization in mitigating climate change risk
- induce collaboration between the industry and the academia in the research and development projects.
- interact and exchange ideas with other delegates and field experts

Who Should Attend
