(THE EMINENT MANAGEMENT UNIVERSITY)

Assalammualaikum & Greetings

Dear Respected Professor/ Assoc. Prof./ Dr./ Sir/ Madam,

Maple:

Maple is math software that combines the world's most powerful math engine with an interface that makes it extremely easy to analyze, explore, visualize, and solve mathematical problems. Makes it extremely easy to analyze, explore, solve mathematical problems via using 1D & 2D mathematical technology.

Maple Version 2016 is adding on Maple Workbook format keeps all related Maple documents, code files, and data together in a single file, and dependencies are automatically maintained when you share your work with others. Use Clickable Math™ 2.0 to perform new operations at the click of a button, from writing fractions as repeating decimals, to computing cross products and dot products in multivariate calculus, or even converting Maple code to the Julia programming language. Solve even more mathematical problems, such as finding analytic solutions to new classes of partial differential equations with boundary conditions, constructing the transitive closure of graphs, finding the series and asymptotic expansions of hypergeometric functions, and much more.

Maplesoft Solutions for Advanced Financial Modeling - Analyze data and create forecasts, measure risks, and develop econometric and quantitative algorithms to support your market-making strategies.

Financial modeling features in Maple:

- Advanced financial modeling and statistical modeling tools
- Powerful symbolic and numeric solvers
- Analyze trends and create forecasts using over 12 million time-series data sets
- Math-aware programming language for fast prototyping and solution development
- Code generation tools for further deployment
- Full technical document environment which combines live calculations and interactive computations with explanations, images, and more

**By Mr. Kelvin
Wong**

Date: 14th February 2017 (Tuesday)
Venue: Main Meeting Room, SEFB
Time: 10.00 am

Registration Method:

Please email your detail to Mr. Mohd Afnan Bin Abdul Khoni (cimbchair@uum.edu.my).

Dateline for registration:

13 February 2017 (MONDAY) before 4.00 pm

All are welcome. For more information, please contact:

Mr. Mohd. Afnan Bin Abdul Khoni

Contact no. : 04-9286942

Email : cimbchair@uum.edu.my
