KEDAH STATE GOVERNMENT DONATES MYR10,000 FOR THE PRODUCTION OF UUM PPE AND HAND SANITIZER

UUM ONLINE: Universiti Utara Malaysia (UUM) received donations from the Kedah State Government totalling MYR10,000 to assist in the production of personal protective equipment (PPE) and hand sanitizer.

The donation was presented by the Kedah State Government Council Member, Dr. Salmee Said during her visit to the site of the production of the PPE and hand sanitizer at UUM.

According to Dr. Salmee the donation was part of an initiative to help UUM continue its project.

"I congratulate and thank both UUM staff and students who worked together tirelessly in contribution to the success of the project in the country's fight against the Covid-19 pandemic.

"I am extremely proud of UUM's commitment in helping to provide the essentials of frontline personnel since the outbreak," said the Chairman of the Education, Human Resources and Human Development Committee.

She also added that she would discuss with the state government to assist UUM in carrying out such projects that were seen as helping those in need.

Deputy Vice-Chancellor (Academic and International), Prof. Dr. Yusnidah Ibrahim extended her gratitude and appreciation to the Kedah State Government for the donation. The donation will be used to help fight against the Covid-19 pandemic.

According to her, the efforts initiated by the denizens of UUM would be the stepping stone to explore more technological programmes in academic or non-academic form despite UUM being a management university.

To date, UUM through its Innovation and Commercialisation Centre (ICC) has produced over 2,000 PPEs, some of which have been handed over to Sultanah Bahiyah Hospital.

Also present were Director of ICC, Prof. Dr. Razamin Ramli; Dean of the School of Creative Industry Management and Performing Arts (SCIMPA), Dr. Ahmad Hisham Zainal Abidin; Director of the University Health Centre, Dr. Adi Azhar Abdul Razak and Director of UUM Corporate Communication, Mdm. Rasidah Rodzi.
