

Mahkota Hotel Melaka

The increasing demand for innovative research ideas, design, architecture and solutions in handling intriguing engineering and ICT problems advocates the provision of rigorous studies among various distinct communities. The aim of ICEI 2012 is to foster a broad range of sustainable collaboration among leading researchers, experts, educators, practitioners and developers seeking knowledge sharing in addressing various issues to advance the state of the art of these evergreen engineering and ICT fields. It is hoped that ICEI 2012 will promote new opportunities for enhanced partnership between academics and industry.

Who Should Attend :

Scholars, researchers, academicians, educators, government agencies, NGOs, industries, interested individuals and organizations.

Conference Topics :

1. Green Technology
 - Renewable Energy
 - Automotive Design
 - Energy and Power Systems
2. System Engineering
 - Autonomous and Intelligent Manufacturing
 - Mechanical System and Innovative Design
 - Power Electronics and Drives
 - Optoelectronics
 - Radio Frequency and Microwave Engineering
 - Broadband and Multimedia Communication
 - Intelligent Systems
 - Computer Vision and Robotics (Covisbot)
3. Emerging System
 - Design and Concurrent Engineering
 - Advanced Manufacturing Process
 - Competitive Manufacturing
 - Engineering Materials
 - Structural Mechanics and Advanced Materials
 - Computer Engineering
 - Embedded Systems
 - Electronics Instrumentation
 - Consumer Electronics
 - Visualization and Immersive Technology
4. Human-Interaction Technology
 - Networking and Soft Computing
 - Data and Knowledge Engineering
