

# UUM to set up Kedah data bank

STAR 22/1/05 11:1

## Aim is to attract investors

**U**NIVERSITI Utara Malaysia (UUM) plans to set up a data bank to compile comprehensive data on Kedah.

The bank will compile data from various agencies in the state that can be used for reference by the government and private sector, UUM Vice-Chancellor Brig Jen Prof Datuk Dr Ahmad Fawzi Mohd Basri (*pic*) said.

He said the data bank would help the Kedah state government to attract more foreign investors to the state.

He said UUM hoped to give a comprehensive picture of the achievements of all the districts in Kedah.

Ahmad Fawzi said UUM has also set up three teams to come up with three main indicators of progress of the Kedah Development Action Plan 2010.

Ahmad Fawzi said this in his speech when opening the two-day Kedah Development 2010 Convention at UUM on Tuesday.

His speech was read out by Deputy Vice Chancellor (Student Affairs) Dr Abdul Halim Ahmad.
