ABOUT

The Similarity Report is the result of comparison between the text of the submission against the search targets selected for the assignment; this may include billions of pages of active and archived internet information, a repository of works previously submitted to Turnitin, and a repository of tens of thousands of periodicals, journals, and publications. Any matching or highly similar text discovered is detailed in the Similarity Report that is available in the Assignment Inbox.

1. PDF FILE

- The Similarity Report can be downloaded in a print-friendly PDF.
- The downloaded version will no longer have any of the Direct Source Comparison capability and will not be able to show side by side comparisons

Forero, C.F. Finch and T.Hill (2003), sports injuries are an important public health issue and a key reason for non-participation in physical activity internationally and in Australia. Sports injuries are a significant cost burden for injury some case, one in 17 Australians experience the cost of those injuries have been estimated G.1991). It also has been estimated that 70% of level sports in Australia sustain one or more injury.

Injuries occur during competition / matches do not report injury risk during training. But union of injuries may occur during matches / and 39% (various competition levels of soccer sport, the standard of competition, and the de B.Johansson C. Tornqvist H. 1991: Seward H.

THE RELATIONSHIP OF SAFETY MANAGEMENT PRACTICE TOWARD SAFETY BEHAVIOR AMONG UUM STUDENT ATHLETES

MSA HANDE OF SOURCE INFORMATION UNIVERSITI UTARA MALAYSIA 2018 THE RELATIONSHIP OF SAFETY MANAGEMENT PRACTICE TOWARD SAFETY BEHAVIOR AMONG UUM STUDENT ATHLETES

CHAPTER 1 INTRODUCTION 1.1 Introduction The National Sports Policy is a sports policy for all, it encompasses both high performance sport and mass sport and has been formulated on the rationale that such activities form an integral part of the overall development efforts of the government directed towards the entire population. Sport develops the same character, respect and environment as are required to the other three areas of development, namely, education, training and health, and it is the primary vehicle for achieving national development, unity and continued stability. (National Sports Policy, 2nd edition, February 2003). In addition, sport can define as which serves to promote healthy competition, sports, tolerance, understanding and the development of physical and mental qualities, provide a conducive platform for integrating the various ethnic groups into a united nation, as well as for enhancing the national prestige. Furthermore, sports also has extensive beneficial effects on the individual, the society and the nation. High performance sports refers to competition in sports at international level. Meanwhile, mass sports refers to sports and physical recreation activities which are the spontaneous or organized pursuit of recreation. • Involvement in sports for competition at national or international level. (National Sports Policy, 2nd edition, February 2003).
