

"...as Asia continues to break new grounds - and old stereotypes - in the global community, no where is there a greater need for the discussion of tomorrow's leadership. This certainly means a new generation of leaders that look beyond traditional borders and expectations, but also new forms of leadership that allow collaboration on issues that increasingly transcend nationality, ethnicity, and local interest. Leadership for an era of falling barriers, instant communication and easy travel. Leadership that places the public interest - mankind's interest - ahead of corporate or political expediency."

- Dato' Sri Mohd Najib Tun Razak,
Prime Minister of Malaysia

Public Sector LEADERSHIP

Personality Driven Approach Based On The Highly Effective N . A . N . O . Leadership

13 - 14 DECEMBER 2011 . GRAND MILLENNIUM, KUALA LUMPUR

"New millennium leadership demands that leaders are able to effectively address key issues affecting the nation and world."

- Prime Minister Datuk Seri Mohd Najib Tun Razak

Leadership of public sector organisations are central to the agenda of governments across the globe that recognise 'Strengthening of Leadership' as the solution to national public challenges.

Now as the public sector faces daunting challenges from global competition and expectations from all quarters to drive the economy, how can Governments build a leadership cadre that is more responsive or representative, and how do they re-orient and refresh existing cadres?

N.A.N.O. LEADERSHIP

N.A.N.O. is the prefix meaning one billionth, in the metric system of measurement. Simply put "one billionth" of something, or 0.00000001.

N.A.N.O. LEADERSHIP is a cutting edge method that focuses on the new paradigm of leadership yet its strategy is borne out of those cores that go back millions of years. It is a program which proves that the best leadership skills you have lie in your 'personality', your leadership 'traits' which are grounded in the bedrock of your values.

By integrating the **Focus of Challenge** (Leadership) and the **Quality of Mind** (Personality), Dr. Lal Sujanani will help you go deep down to that **ONE 'BILLIONTH' LEVEL OF YOU** to question **Who You Really Are, What You Believe and What You Stand For.**

**LEAD THE NATION TOWARDS ITS VISION OF
PEOPLE FIRST, PERFORMANCE NOW.**

ATTEND THIS TIMELY WORKSHOP TO...
