WHAT RESEARCHERS SHOULD KNOW ABOUT **PREDATORY PUBLISHING**

In this online session we take a closer look at the phenomenon of predatory publishing and consider carefully what researchers should watch out for and why. We provide insight into how Scopus curates its content and in particular the details of how journals are discontinued and what implications this has for researchers. Finally, we provide some advice for researchers on due diligence regarding targeting journals for publishing.

19TH AUGUST

02:00 PM in Singapore

PRESENTER:

Alexander van Servellen
Senior Consultant, Research
Intelligence Elsevier

Alexander Van Servellen is a Senior Consultant for Research Intelligence at Elsevier. He has over 10 years of experience in field of research analytics, and works closely with academic and government institutions to help them use information and analytics to improve the efficiency and impact of research. He is originally from the Netherlands, and has been living and working in Singapore since 2013, where he serves institutions in South East Asia. Alexander has a MSc in Developmental Psychology, from University of Amsterdam, and has worked with Elsevier since 2008.
